All I can say my Chocolate Lab is not aggressive. I take him to the town dog park and every now and then there will a dog that will be a bit aggressive my Lab just looks at them and jump over or round them.

When Zale was about 2 years old a Dachshund from next door grabbed his upper lip Zale just walk over to me with this dog hanging. It drop off, all Zale did was to jump around the Dachshund until it went home.

My UPS man and the Gas meter reader man do not trust Black or Yellow Labs but trust Chocolate Lab. Thats a Quote
